Health and Safety Policy

Making Health & Safety personal means that each of us is accountable for the wellbeing of ourselves and others who may be affected by our activities.

We will ensure that advice and guidance is provided to our employees to assist them to identify, consider and effectively remove or reduce the risks associated with the work we do.

Our regional leadership teams will ensure that Health & Safety is integral to the way we work, promoting a positive Health & Safety culture which empowers and enables our employees to work in a manner which keeps them safe from harm.

Pursuing our vision and effectively managing Health and Safety risks is the responsibility of our regional businesses, which will:

— Ensure their Health and Safety management system is maintained and implemented such that it meets or exceeds the requirements of this Policy, local legislation, our ‘Expectations for Health and Safety Management,’ and adequately addresses local Health and Safety risks.

— Set Health and Safety objectives annually, communicate these to all employees, and monitor progress.

— Improve Health and Safety performance continuously as part of good business practice.

— Ensure that acquired businesses are integrated into our way of working.

— Ensure an appropriate level of resources and funding to support this Policy.

— Communicate with employees on any Health and Safety matters which may affect them.

The leadership teams of each region are expected to:

— Promote a positive Health and Safety culture by providing visible and tangible leadership.

— Encourage the sharing of best practice and lessons learned across our global operations.

— Make safety integral to everything we do, by ensuring that Health and Safety is an agenda item at all leadership meetings and given equal importance to other operational items.

— Submit a formal progress report to the Corporation’s Board on a quarterly basis.

— Provide feedback and recognition to employees who positively contribute to reducing Health and Safety risks.

Employees have a duty of care to themselves and others potentially affected by our activities and are expected to be aware of, and encouraged to contribute to the delivery of this Policy by:

— Knowing where they can access suitably qualified and experienced Health and Safety advisors for guidance and advice.

— Making Safety Personal by reporting any accidents, incidents, unsafe acts, near misses or observations where Health and Safety performance could be improved.

— Challenging the status quo, suggesting improvements and proposing innovative ideas which can remove risk from our activities.

— Keeping Health and Safety a priority in our offices, on our sites and at home.

In 2020, we will continue our efforts to reduce and remove the risks associated with all of our activities, and maintain our focus on driving, activities on project sites and overseas working.

We look forward to collaborating with our employees, clients and partners to deliver the vision, values and objectives set out in this Policy.

Paul Dollin
Global Chief Operating Officer
